

“Choosing the Right Data Plan”

The matrix below will give you an idea of the amount of data you will need **per month** based on the number of photos you take per day.

Photos (PER DAY)	Data (PER MONTH)
100 per day	.5 GB of data per month
200 per day	1 GB of data per month
300 per day	1.4 GB of data per month
400 per day	1.8 GB of data per month
500 per day	2.2 GB of data per month
600 per day	2.7 GB of data per month
700 per day	3 GB of data per month
800 per day	3.5 GB of data per month
900 per day	3.9 GB of data per month
1000 per day	4.4 GB of data per month

*data usage is based on 150KB photo size. This is the photo size created when taking a photo through INSPI, Photo Direct or Vendor Web Mobile.

*****This does NOT include your personal use (text / picture messaging, data streaming, etc.) So please take that into consideration!***

Carriers vary per region. A helpful site to use to make your decision is myrateplan.com

Best Case: A 4G / LTE network will transfer photos and work orders faster!
